

## INFORMATION

Virol village is located in Mehamadabad Tehsil of Kheda district in Gujarat, India. It is situated 11km away from district headquarter Kheda. As per 2009 status, Virol village is itself a gram panchayat.

Virol Village is adapted By Bank of Baroda  
The total geographical area of village is 520.75 hectares  
Virol has a total population of Aprox 2,569 peoples. There are about 256 houses in Virol village.  
Mehmedabad is nearest town to Virol which is approximately 11km away.

Block / Tehsil :	Mehmadabad
District :	Bhavnagar
State :	Gujarat
Pincode :	3
Area :	520.75 hectares
Population :	2,569
Households :	256
Nearest Town :	Mehmadabad (11km)

## **What we Learnt?**

To give hand on experience of Virol and amenities available at the village, 32 students from D A Institute of Technology of Mechanical Engineering Dept. visited village Virol, dist. Kheda along with Jignesh Sir and Bharat Sir on 19<sup>th</sup> August, 2016.

On 21<sup>th</sup> August, 2016 (Friday) at 11:00 A.M. we reached at Viro Village, T.A. Mehamdabad , Dist. Kheda We have divided our whole visit schedule into mainly two sessions.

## **Personal Experience of Students :-**

The village visit was the interface between the college life and the people and farmer of village. All those who attended experienced the moment and life of rural area.

Students were given an opportunity to have dialogue with **Principal of Primary School, Virol. Mr. Mahavirsinh Gohil, farmer govindbhai Dakhara and Farmer and Researcher Lashkarbhai Dakhara**, Students asked different question related to development of village. They asked their query for how such a village development was done. **Shri. Mahavirsinh Gohil and Lashkarbhai Dakhra** motivated students to work for rural development. He insisted that each student should work for his or her village and area so as hand and heart works together.

## PURPOSE OF VISIT

❖ Village visits are important for the following reasons:

1. Vishwakarma Yojana” is a Government of Gujarat allotted to GTU under which students are to be trained for technical association for rural development.

2. Vishwakarma Yojana is providing “**Design to Delivery**” solution for development of villages in ‘urban’ areas.

It is proposed to frame “**Village Visit**” to provide the benefit of real world experience to engineering students and simultaneously **apply** their technical knowledge **in the development of infrastructure in Villages.**

The Engineering colleges would study the identified villages and make the recommendations on the application of technology to achieve integrated and comprehensive development, through project preparation and management.

In order to achieve the above mentioned objectives we had organized an Village visit at Virol Village, Mehemdabad for 1st Sem. Computer/I.T. Students.

## Conclusion

The experience of this tour was really fantastic and unforgettable. Students were encouraged to work for rural development. They got a clear idea as to which amenities and infrastructures are requiring for betterment of life at rural area. Students were also made aware about different scheme by government for rural development. We are very much thankful to GTU for their Initiative of such village Visit. By using this concept our students can make better project for nation development.
