

A REPORT ON

IMPORTANCE OF
DRAWING & DESIGN IN
MECHANICAL ENGINEERING

ORGANISED AT

DADET EDUCATION CAMPUS

ON 20TH MARCH, 2024

With the support and encouragement by SOPAN Institute of Engineering and Design Ahmedabad, one day seminar titled “**Importance of Drawing and Design in Mechanical Engineering**” was organized by Department of Degree Mechanical Engineering at DADET Education campus on 20th March, 2024.

It was attended by around 45 to 50 participants who belongs to Degree and Diploma Mechanical branch students where an expert Mr. Naimesh Shethiya who is the Managing Director of SOPAN Institute of Engineering and Design Ahmedabad, gave inspirational speech and enrich the students with his knowledge and explained that the drawing expertise is essential for mechanical engineers since it serves as the basis for efficient manufacturing, design, and communication procedures. Drawing help to communicate problems and solutions that mechanical engineers experience.

We had some guests for the day. The first was Mr. Himanshu Pandey, an Application Engineer in the Mechanical Engineering field at SOPAN Group.

Miss. Jyoti Yadav, an Application Engineer in the Civil Engineering field of SOPAN Group, and Mr. Bharat Solanki were the third and final guests of the day. He is a very senior faculty member of our D. A. Education Campus, working as an Assistant Professor in Degree Engineering College as well as the GTU coordinator of D. A. Degree Engineering and Technology.

He also suggested that these drawings can become integral parts of a project and help define what needs to be done. They help communicate complex processes and structures in a way that makes it clear and concise.

The session ended with some questions asked by the students and valedictory speech by the Prof. Bhaumik Bhandari.
